New England Churches & Networks  
together for Renewal & Multiplication

New England is one of the most spiritually underserved regions in the U.S.—but renewal is possible. History proves it, Scripture promises it, and together, we can experience it. The 521 Collaborative helps pastors and church networks renew their vision, multiply their impact, and bring lasting spiritual transformation to their communities. By working together, we can saturate New England with the Gospel—because no single church can do it alone.
